

# Rein Cloud™

## AG-DATA SERVICES FOR ENHANCED IRRIGATION MANAGEMENT

### REIN CLOUD ONLINE SOFTWARE

Learn how ReinCloud is making it easier to manage irrigation.

# REINCLOUD™ AG-DATA SERVICES

A better way to collect and display field and irrigation data for improved irrigation management.

Built for growers and producers worldwide, ReinCloud™ Ag-Data Services is an online software that helps you combine field and irrigation data into one easy-to-use dashboard. Whether it's irrigation monitoring and controls, soil moisture or weather data you're looking for, ReinCloud is easy-to-use, informative and ready to put your ag-based data to work. Here's a few of the features that make ReinCloud the right choice for your operation:

## Navigation Menu

### Notifications

Stay informed on system status through in-app notifications.

### Sites, Weather & Map

Organized data by sites, zones and equipment.

### Dashboard

Quickly view irrigation system and status other widget data all in one dashboard.

### Equipment Search

Search for your equipment by site and zone.

### Run Queue

Check the status of equipment controls.

### Help & Support

Access tutorials or chat with a representative.

### Your Profile

Easily adjust notification delivery and account settings.

### Responsive Display

Get everyday access on your devices whether it's a smartphone, tablet, laptop or computer.

### Irrigation Widgets

Irrigation widgets are smart icons that can display data at a glance. Click on a widget for more details and equipment control options.

### Field Sensing Devices

Check soil moisture, weather, and other environmental data with compatible ReinCloud Ready™ products.

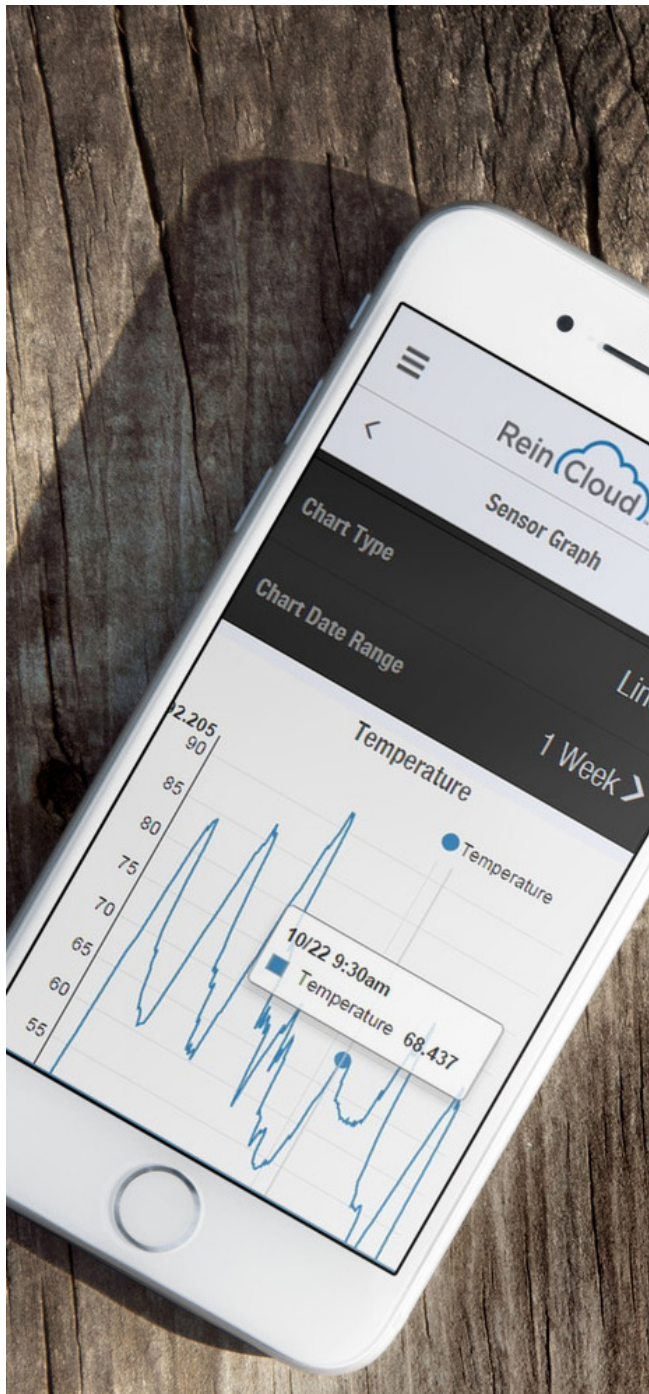

## Software Features

ReinCloud includes the following features:

- Safe and secure data services
- Data organization by site and zone
- Customizable dashboard
- Access on everyday devices
- Notifications through option of Text, Email, App or Voice.
- Irrigation Equipment Widgets
- Soil Moisture & Weather Equipment Widgets
- Reports
- Data Sharing
- Weather Widget powered by WeatherUnderground™
- Aerial Map View
- Data graphing

Built using the latest in data collection, storage, processing and presentation, ReinCloud is a great tool for any producer.
