**REINKE RECOGNIZES THREE J&E INC. EMPLOYEES WITH
PLUS CERTIFIED TECHNICIAN AWARDS**

DESHLER, Neb. (Jan. 19, 2006) – Reinke® Manufacturing, Inc., a leading manufacturer of mechanized irrigation systems, is pleased to announce that Alfred Anderson, Mitch Baker and Bill Peters, all of J&E Inc., Basin, Wyo., have earned the PLUS Certified Technician Award.

The prestigious award, which has been received by only a handful of service technicians in the Reinke service network, is one of the most elite designations awarded by Reinke.

“Being recognized as a PLUS Certified Technician is quite a remarkable accomplishment,” said Tim Goldhammer, vice president of marketing, Reinke Manufacturing. “Alfred, Mitch and Bill have completed one of the most extensive service training courses available to Reinke dealerships and should be commended for their hard work.”

All three J&E Inc. service technicians qualified for the honor during the most recent service school, which was held at Reinke headquarters, Deshler, Neb., during the week of November 28, 2005.

The PLUS Certified Technician Program consists of a series of service-training classes and tests. Anderson, Baker and Peters received the PLUS award by completing all of their classes and receiving very high marks on all testing.

Founded in 1954, Reinke Manufacturing Company, Inc. is one of the world’s oldest and largest manufacturers of center pivot and lateral move irrigation systems. Reinke is a pioneer in agricultural mechanized irrigation technology, designing the first reversible, electric-gear-driven center pivot system with a bowstring truss.
