**BILLINGS DEALERSHIP LATEST TO OFFER  
REINKE IRRIGATION MECHANIZED PRODUCTS**

DESHLER, Neb. (Feb. 2, 2006) – Reinke® Manufacturing, Inc., a leading manufacturer of mechanized irrigation systems, has added Montana-based Billings Pump & Irrigation to its growing list of distributors.

Billings Pump & Irrigation (formerly known as Billings Pipe & Pump Supply), based in Billings, Mont., has been providing leading irrigation products to producers in its area for more than 70 years.

Terry Welborn, president, Billings Pump & Irrigation, attended the new dealer orientation at Reinke headquarters, Deshler, Neb., on January 16-17, 2006. Welborn came away pleased with the decision to offer Reinke irrigation systems for his customers.

“Reinke offers top quality irrigation systems and we have wanted to make them available for our customers,” said Welborn. “I enjoyed my time in Deshler for new dealer orientation and it further strengthened my feelings of Reinke products and the devoted Reinke support staff that truly believes the dealers and their customers come first.”

Reinke, a leader in mechanical irrigation system innovation and technology for more than 51 years, prides itself on offering the comprehensive orientation program to assist dealers in finding the most effective methods to address the needs of their customers.

“It’s our privilege to add Billings Pump & Irrigation to the growing list of dealerships that recognize the value of Reinke products,” said Tim Goldhammer, vice president of marketing, Reinke Manufacturing Inc. “We have high expectations for Billings Pump & Irrigation and we look forward to working with them for years to come.”

Founded in 1954, Reinke Manufacturing Company, Inc. is one of the world’s oldest and largest manufacturers of center pivot and lateral move irrigation systems. Reinke is a pioneer in agricultural mechanized irrigation technology, designing the first reversible, electric-gear-driven center pivot system with a bowstring truss.

Headquartered in Deshler, Neb., Reinke’s products are used throughout the United States and Canada, and in more than 60 countries worldwide.
